## JavaScript Fundamentals

### Lab 5

#### **Event Object**

**1. Prevent context menu from being displayed by preventing from mouse right click from its action.**

**Note:**

**context menu is the menu displayed when mouse right button is clicked**

**2.a. Create a simple form that on submit display confirmation message and according to user action it will either stop submission from proceeding or it will continue form submission.**

**2.b. Make your own custom event “custEvent” that fires after 30 seconds if the user has not entered any data.**
